Product Description

Designed with the latest high-sensitivity GPS receiver, the GPSMap 60CSx tracks your position even in tree cover and canyons. With a bright, sunlight-readable colour TFT display and includes a 64MB microSD card for storage of optional map detail. Garmin preprogrammed microSD cards can be purchased, providing detail for and includes a 64MB microSD card for storage of optional map detail. BlueChart, and European streets.

Fast USB connectivity makes loading charts and maps quick and easy, while navigation instructions can be shared with repeaters, plotters, and autopilots using NMEA protocols through the dedicated serial port.

The GPSMAP 60CSx incorporates a barometric altimeter for extremely accurate elevation and vertical profile data. An electronic compass displays accurate heading while standing still.
