Product Description

This rugged unit with high-sensitivity GPS receiver offers innovative features such as a sunlight readable touchscreen for easy operation as well as the ability to exchange waypoints, tracks, routes and geocaches wirelessly between units. In addition, you can customize your unit with five different user profiles: automotive, marine, recreation, fitness or geocache. The Oregon's detailed mapping and high-resolution display enhance any outdoor adventure, whether on land or water.

The Oregon 200 features a preloaded worldwide basemap. The Oregon 300 features a preloaded worldwide basemap with shaded relief and incredibly detailed map presentation on the unit. With the state-of-the-art 3-D elevation perspective and preloaded European topographic map at a 1:100k scale with street-level detail, the rugged Oregon 400t is the perfect companion for your outdoor adventures. It gives you all the need for serious climbing, hiking or hunting.
