## Product Description

With its high-sensitivity, WAAS-enabled GPS receiver, eTrex Summit HC locates your position quickly and precisely and maintains its GPS location even in heavy cover and deep canyons. eTrex Summit HC has a built-in electronic compass that provides bearing information even while you're standing still, and its barometric altimeter tracks changes in pressure to pinpoint your precise altitude. You can use the altimeter to plot barometric pressure over time, which can help you keep an eye on changing weather conditions. The eTrex Summit HC is comparable to the monochrome eTrex Vista with the addition of the high sensitivity GPS receiver and a high resolution TFT color display.
